Eczema, Turning to Blood Poison. Treated by Specialists Seven Months without One Particle of Success.

Body Running Sores. Condition Terrible. Life a Burden. Tried CUTICURA. In Three Days Attends to Business. Cure Permanent.

In the spring of 1891 I took that dreadful skin disease, Eczema, which turned into blood poison. I consulted the best local specialists in this city. They treated me for seven months but I never derived any benefit of good from any of them. They had given it up as a hopeless cure. I was covered with sores from head to foot; I had running sores from the neck down to the knees. Some of them were as large as a box of your CUTICURA. It cost me hundreds of dollars with these so-called specialists. My condition was terrible. I was almost a burden to me. I could not eat, I could not sleep, I was unable to walk and had given myself up as dead. I tried all medicines imaginable, until a friend who had got relief advised me to try CUTICURA. I sent out and got them, and when I took the first dose of your CUTICURA, I felt a little better; with three boxes of your most valuable CUTICURA and one bottle of CUTICURA RESOLVER I was a new man. In three days I was up walking around and attending to my business, and it is the CUTICURA and CUTICURA RESOLVER that have saved me from the jaws of death. This is two years ago. I wanted to see if it had been driven out of my system, and I can say I have never had any trouble since for two years.
